

Covid-19 Catch up Funding

Bridge Farm Primary School will receive Covid-19 catch up funding spread across the following financial years:

2020-2021 and 2021-2022

The DfE requires all schools to publish the following information:

- how it is intended that the grant will be spent*

Bridge Farm Primary School has spent the allocated catch up funding on additional staffing in Y1/Y5/Y6. The school has also allocated funding to be spent on tutoring of pupils in Y2-Y6, to diminish differences in attainment in Reading, Writing and Maths.

- how the effect of this expenditure on the educational attainment of those pupils at the school will be assessed*

Progress measures will demonstrate the impact that the funding has had on the attainment of pupils, based on relative starting points. The school will make baseline entry assessments and exit assessments in order to measure the progress made.
